

Dear Participants,

We're excited to share an exclusive opportunity for all participants to use n8n during the hackathon.

n8n Voucher Code

You can use the following voucher code to redeem one month of n8n Cloud access:

"2026-COMMUNITY-HACKATHON-INDIA-18D35A55"

Please follow the steps outlined in the guide below to redeem your voucher:

"How to Redeem Your n8n Voucher"

<https://n8n.notion.site/voucher-code>

Important: The voucher code provides access to n8n for one month and will expire one week after your event. We recommend redeeming it as soon as possible.

Best Use of n8n in Your Project

We're also happy to share that all members of the 1st-place winning team for the Best Use of n8n in Your Project will receive one year of n8n Cloud Pro.

This is a great opportunity to integrate n8n meaningfully into your project and showcase how automation and workflows can enhance your solution.

Due to the current timeline and bandwidth, n8n will not be able to provide mentorship support for this hackathon. However, you can make use of the following resources:

- n8n Documentation

<https://docs.n8n.io/>

- Beginner Course for New Users

<https://community.n8n.io/tags/c/tutorials/28/course-beginner/353>

- n8n Tutorials

<https://community.n8n.io/c/tutorials/28>

- Template Library

<https://n8n.io/workflows/>

- Advanced Course for Complex Workflows

<https://community.n8n.io/tags/c/tutorials/english/29/course-advanced/354>

We encourage all participants to start exploring n8n and integrate it meaningfully into their projects before the event.

Best of luck, and we look forward to seeing what you build!
